RE: Required Submission of Information by General Electric Company
Lower Darby Creek Area Superfund Site

Dear Mr. Miller,

I write on behalf of Bradford F. Whitman, counsel to General Electric Company, to confirm that Brian Nishitani has granted a two-week extension of the due date for the above-referenced Required Submission. Mr. Nishitani agreed to the extension in a telephone conversation with David Rifkind, of General Electric.

Your letter regarding the Required Submission was received by General Electric on August 8, 2001. Therefore, a written response is now due on September 6, 2001.

Please feel free to call me with any questions.

Very truly yours,

Elizabeth F. Abrams
